

# Firing Points

Winter 2012

The Newsletter of the PHARR RIFLE & PISTOL CLUB

Vol. 20 No. 1

## CONSTRUCTION BEGINS!

- Construction has begun on the bullet catchers at the range. We finally managed to get through all of the red tape needed to finalize our grant from Texas Parks and Wildlife. They have been great. They helped us with all of our needs during a time when they were facing cut backs and personnel changes.
- The work schedule will follow these guidelines: **First**, the construction of bullet catchers on all three ranges. **Second**, some improvements to the road and parking areas. **Third**, the start of the range baffle system.
- There are two other parts of the range rebuilding program. Moving our electrical lines underground and installing a classroom building at the range. These projects are secondary to the construction of any and all safety features.
- We will do as much work as

possible with the current state of funding. When the funds run out we will pause work only as long as it takes to collect dues for the next fiscal year.

- We will begin renewals for the next fiscal year starting in July. This is as it has always been. As we do every year, we start renewals three months early in order to be able to process the large membership.
- It may be necessary to close a range or two during the building process. Look for signs on the gate, notices on the Club website and email notifications. If your email is not current with the Club then you will not get an email notice.
- We are now an official NRA recruiter. This means that we can offer discounts on all NRA memberships. We can now offer the regular yearly membership for \$25 instead of \$35.

## Match Schedule

- Jan:** Cowboy on the 8th.  
Steel speed on the 15th.  
Black Powder on the 22nd.
- Feb:** Regular IPSC on the 5th.
